 n/a

Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:
 See Continuation Sheet

Part III.

- ☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

 (Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant was informed that the present application will be treated as a "continuation" of parent application 09/878,947, U.S. Patent No. 6,665,984, because the U.S. Patent contains claims drawn to the originally non-elected species of the "switch actuator" found in the parent application. Applicants were informed that a timely filed terminal disclaimer is necessary. Claims drawn to the switch actuator in the present filed application will be placed in independent form and claim dependencies corrected as deemed necessary. Claims drawn to the non-elected species of the present application, i.e., the hinge and handgrip will be cancelled.
